

Commander's Package

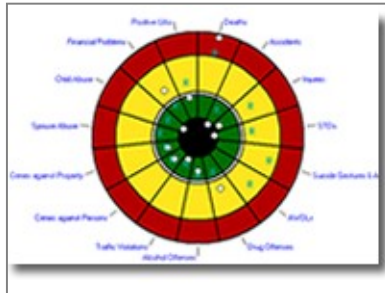

- ACSAP sees commanders as an important part of the Risk Reduction Program.
 - Commanders have a way to view reports quickly and efficiently via “Quick Links”.
 - Quickly generate Shot Groups with one click.
 - Matrix reports for commanders of multiple units enables quick quarterly snapshot view of all units within a command.
 - The following slide is setup for what a Brigade/BCT commander might view.

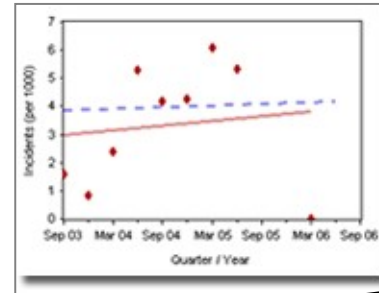

US Army Risk Reduction Program

Software – Cmdr's Pack

All the report links within the “Commanders Package” will be “Quick Links”. These Quick Links will populate according to the users’ scope of visibility.
